

Oregon's Premier All-student Hackathon

HackOR

Sponsorship Prospectus

March 26th-28th, 2021

hackor.org | hello@hackor.org | [@thehackor](https://twitter.com/thehackor)

Introduction

What is HackOR?

HackOR is a 48 hour virtual hackathon—an event where programmers gather for a short period of time to collaborate on a project—organized and chaired by the major schools in Oregon.

Partnering with Major League Hacking (MLH), we aim to bring the best and brightest students in tech together to enjoy a virtual weekend of hacking, workshops, tech talks, networking and other fun activities.

Why Sponsor Us?

We wish to provide our participants with the best resources and overall experience. Since MLH events are almost entirely sponsor-funded, we need your help.

HackOR will be a fantastic avenue to attract positive attention to both students and companies. As sponsors, you will have ample opportunities to:

- **Showcase** your brand
- **Meet** and observe how participants work and evolve a project over a hackathon
- **Recruit** prospective talent under a friendly environment to interact with them in
- **Test** your API or product with students before sending it out into the world

Timeline

Concluding Remarks

As a team of passionate students, we are really excited about this event and look forward to hearing back from you. And, of course, we are open to any questions, input, or accommodations that you may have. You can find out more details at our official website, hackor.org, or reach us at hello@hackor.org.
